

My interests are not served by Sinclair forcing the broadcast of the "Stolen Honor" propaganda film.

As a United States citizen, I hereby exercise my right to demand an end to the corporate dominance of my public airwaves.

There are many cable stations that can be used to freely exercise political views -- far right or far left or moderate. However, the public must have more control over its own airwaves. Including, possibly, the right to vote to repeal broadcasting privileges from abusers, and to issue punitive fines, on a local basis.
